YOU STUNT

Concepts GmbH
creative entertainment

**ACTION-
SHOWS**

Visitors want one for sure: they want to be entertained! Nowadays the entertainment factor gets more important in action shows. In order to provide a successful and enduring entertainment, you first need a good idea. And that's exactly where we take part!

Youstunt Concepts GmbH is specialized in designing, developing and realising professional, theme-based stunt- and adventure - shows for leisure- and amusement parks. Our main focus is a perfect balance of action, fun and entertainment!

What could we do for you?

We create an individualized show concept, suitable for your needs and wishes. With attention to details we consider your chosen theme, the preferred audience and of course the location. To provide enduring entertainment Youstunt Concepts GmbH structures all necessary information together with you.

Starting with an idea Youstunt Concepts GmbH accompanies you with expert support until the show highlight is completed. Creativity, diversity of ideas, know-how and years of practical experience are an ideal combination. Transparent processes in planning and organization will give you extra security.

Our architects individually plan and design the complete scenery based on the desired theme and the location, that means: from groundbreaking to the premiere, everything can be supplied from a single source.

What do our shows offer?

Our shows include various stunt elements like for example **fighting scenes, high falls, jumps, parkouring, fire action, jumps through glass, car and motorcycle action** as well as **pyrotechnical special effects**. For the implementing a team of action performers is available 365 days a year.

Visit our website for further information and more examples of our performance and capabilities. We will also inform you about our stunt workshops and the opportunity to shoot your own movie. Numerous pictures and videos are waiting for you, so visit:
