YOU STUNT

Concepts GmbH
creative entertainment

**STREET-
ENTERTAINMENT**

Sometimes it's the little things that distinguish a good from a perfect day. So offer your visitors fun and entertainment literally „to touch“ and that on every chosen location!

Youstunt Concepts GmbH is specialized in conceiving and realising professional, theme-based adventure- and stunt shows for recreation and amusement parks. Our main focus is a perfect mixture of action, fun and entertainment.

Mobile and interactive

A stationary show is not always the right choice. Therefore we offer, in addition to our “big” shows, a mobile version as well. We call this Street entertainment and this is it exactly: entertainment on the street. Instead of a determined program in a scenery, our team walks around your whole area and enthuse the audience with small show acts.

Besides the mobility, the interaction with the visitors is very important for us. No matter if they are children or adults, we turn it into action, literally. The visitors could be involved interactive and could be a stuntman by themselves. So they learn a lot about our work and tricks. Thrill is guaranteed!

What is special?

The main difference between a stationary show and our street entertainment is the special closeness to the audience and the flexibility of time, duration and location. Our performers and the audience are on the same level, no stage ramps or some kind of barriers separate them from each other. Our acts are applicable on any location and even relocations are possible without difficulties. Create attention just where it is desired. Our street entertainment suits perfectly for all kind of promotion and advertising.

Numerous little “show bites” we have already developed. You would like to have something completely new? No problem! Just tell us the desired genre or theme and we perform the matching show, of course in proper style costumes and matching accessories. If necessary we create the perfect character for your needs. Street entertainment is best entertainment in the middle of your audience!

For further information and more examples of our performance and capabilities, we would like to invite you to visit our website: www.youstunt-concepts.com. There we also inform you about our stunt workshops and the opportunity to shoot your own movie.
